

Please do not overturn the New Jersey Do Not Call laws. Before I placed my telephone number on the Do Not Call list I was receiving several calls each day from telemarketers. I would continuously request that they remove my name and telephone number from their lists and refrain from contacting me in the future. The worst part about the telemarketers is that even after requesting to be removed from their lists, I would still receive calls from the same telemarketers. They ignored my repeated requests to be left alone. Some telemarketers would even call after 9 p.m. which I thought was illegal. The strict laws protect me from having to constantly stop whatever I was doing, whether it be cooking dinner, relaxing with my family, playing with the dog, or entertaining guests to run and answer the phone for a telemarketer. My quality of life has drastically improved because I am no longer bombarded with unwanted calls. Please consider how frustrating it is when a telemarketer interrupts your life to try and pressure you into buying something you either do not need or cannot afford. Please do not overturn the New Jersey Do Not Call laws.
